

Why Landscapes?

No man is an island entire of itself; every man is a piece of the continent, a part of the main; if a clod be washed away by the sea, Europe is the less, as well as if a promontory were, as well as any manner of thy friends or of thine own were; any man's death diminishes me, because I am involved in mankind.

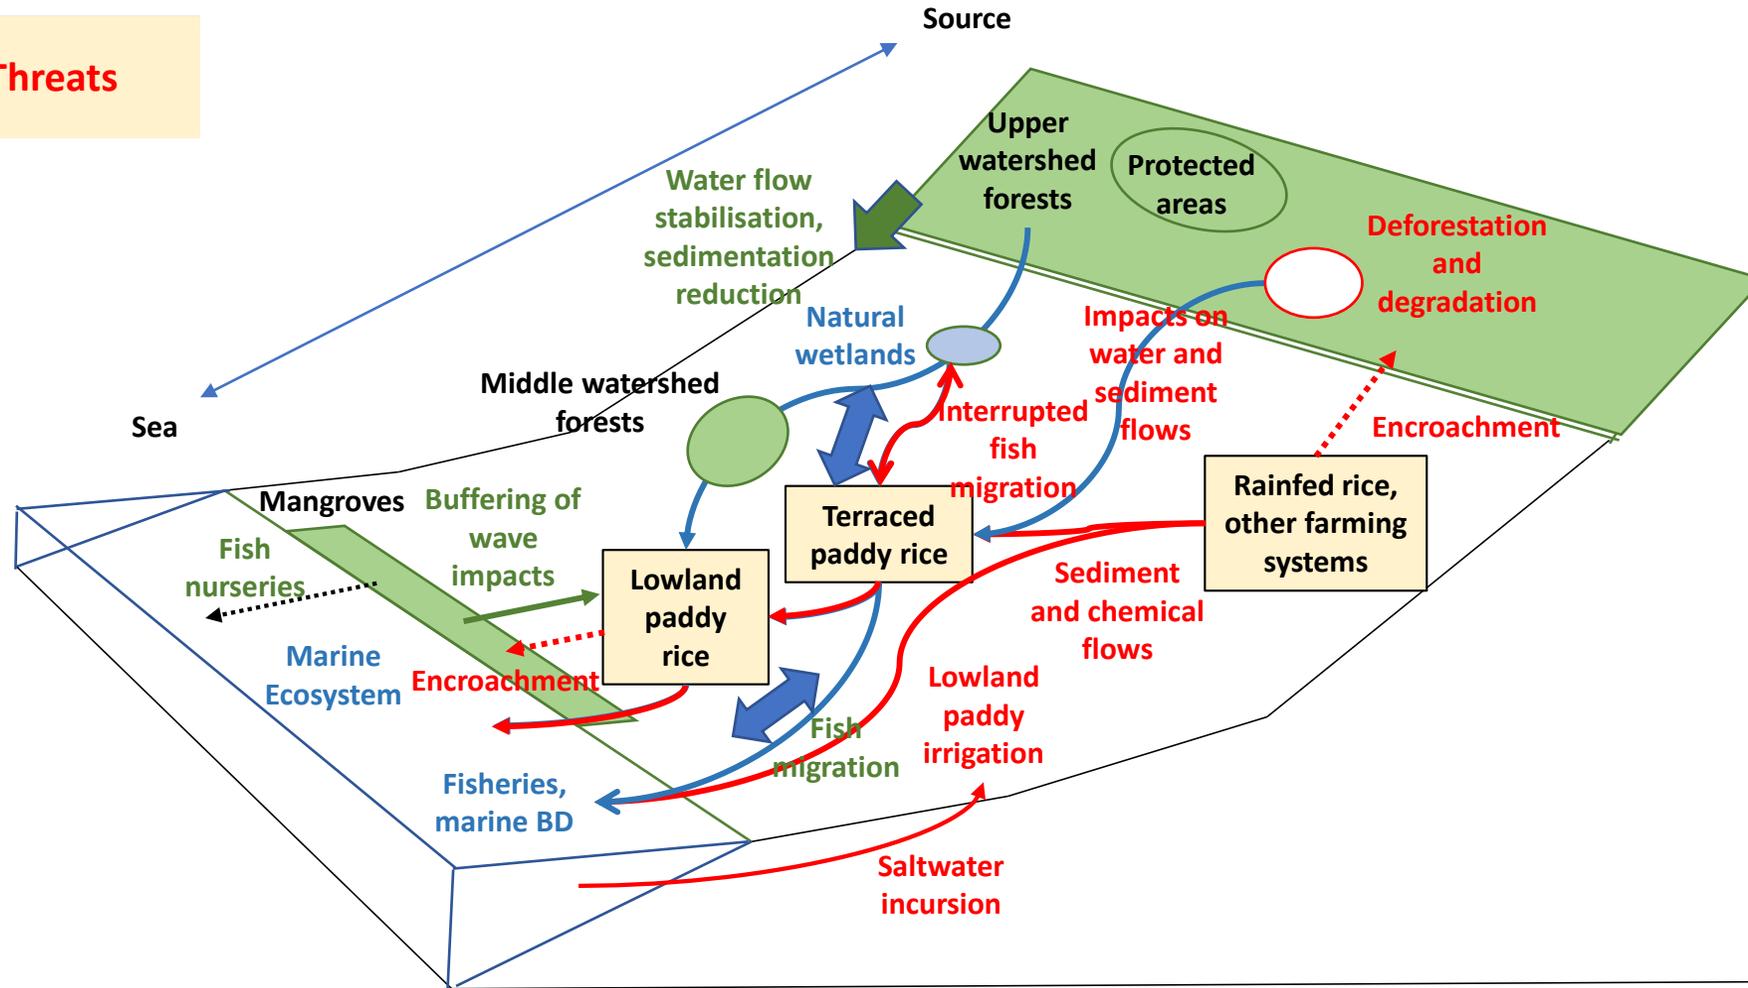

And therefore never send to know for whom the bell tolls; it tolls for thee.

John Donne

No farm is an island

Dimensions of landscapes: from source to sea

Threats

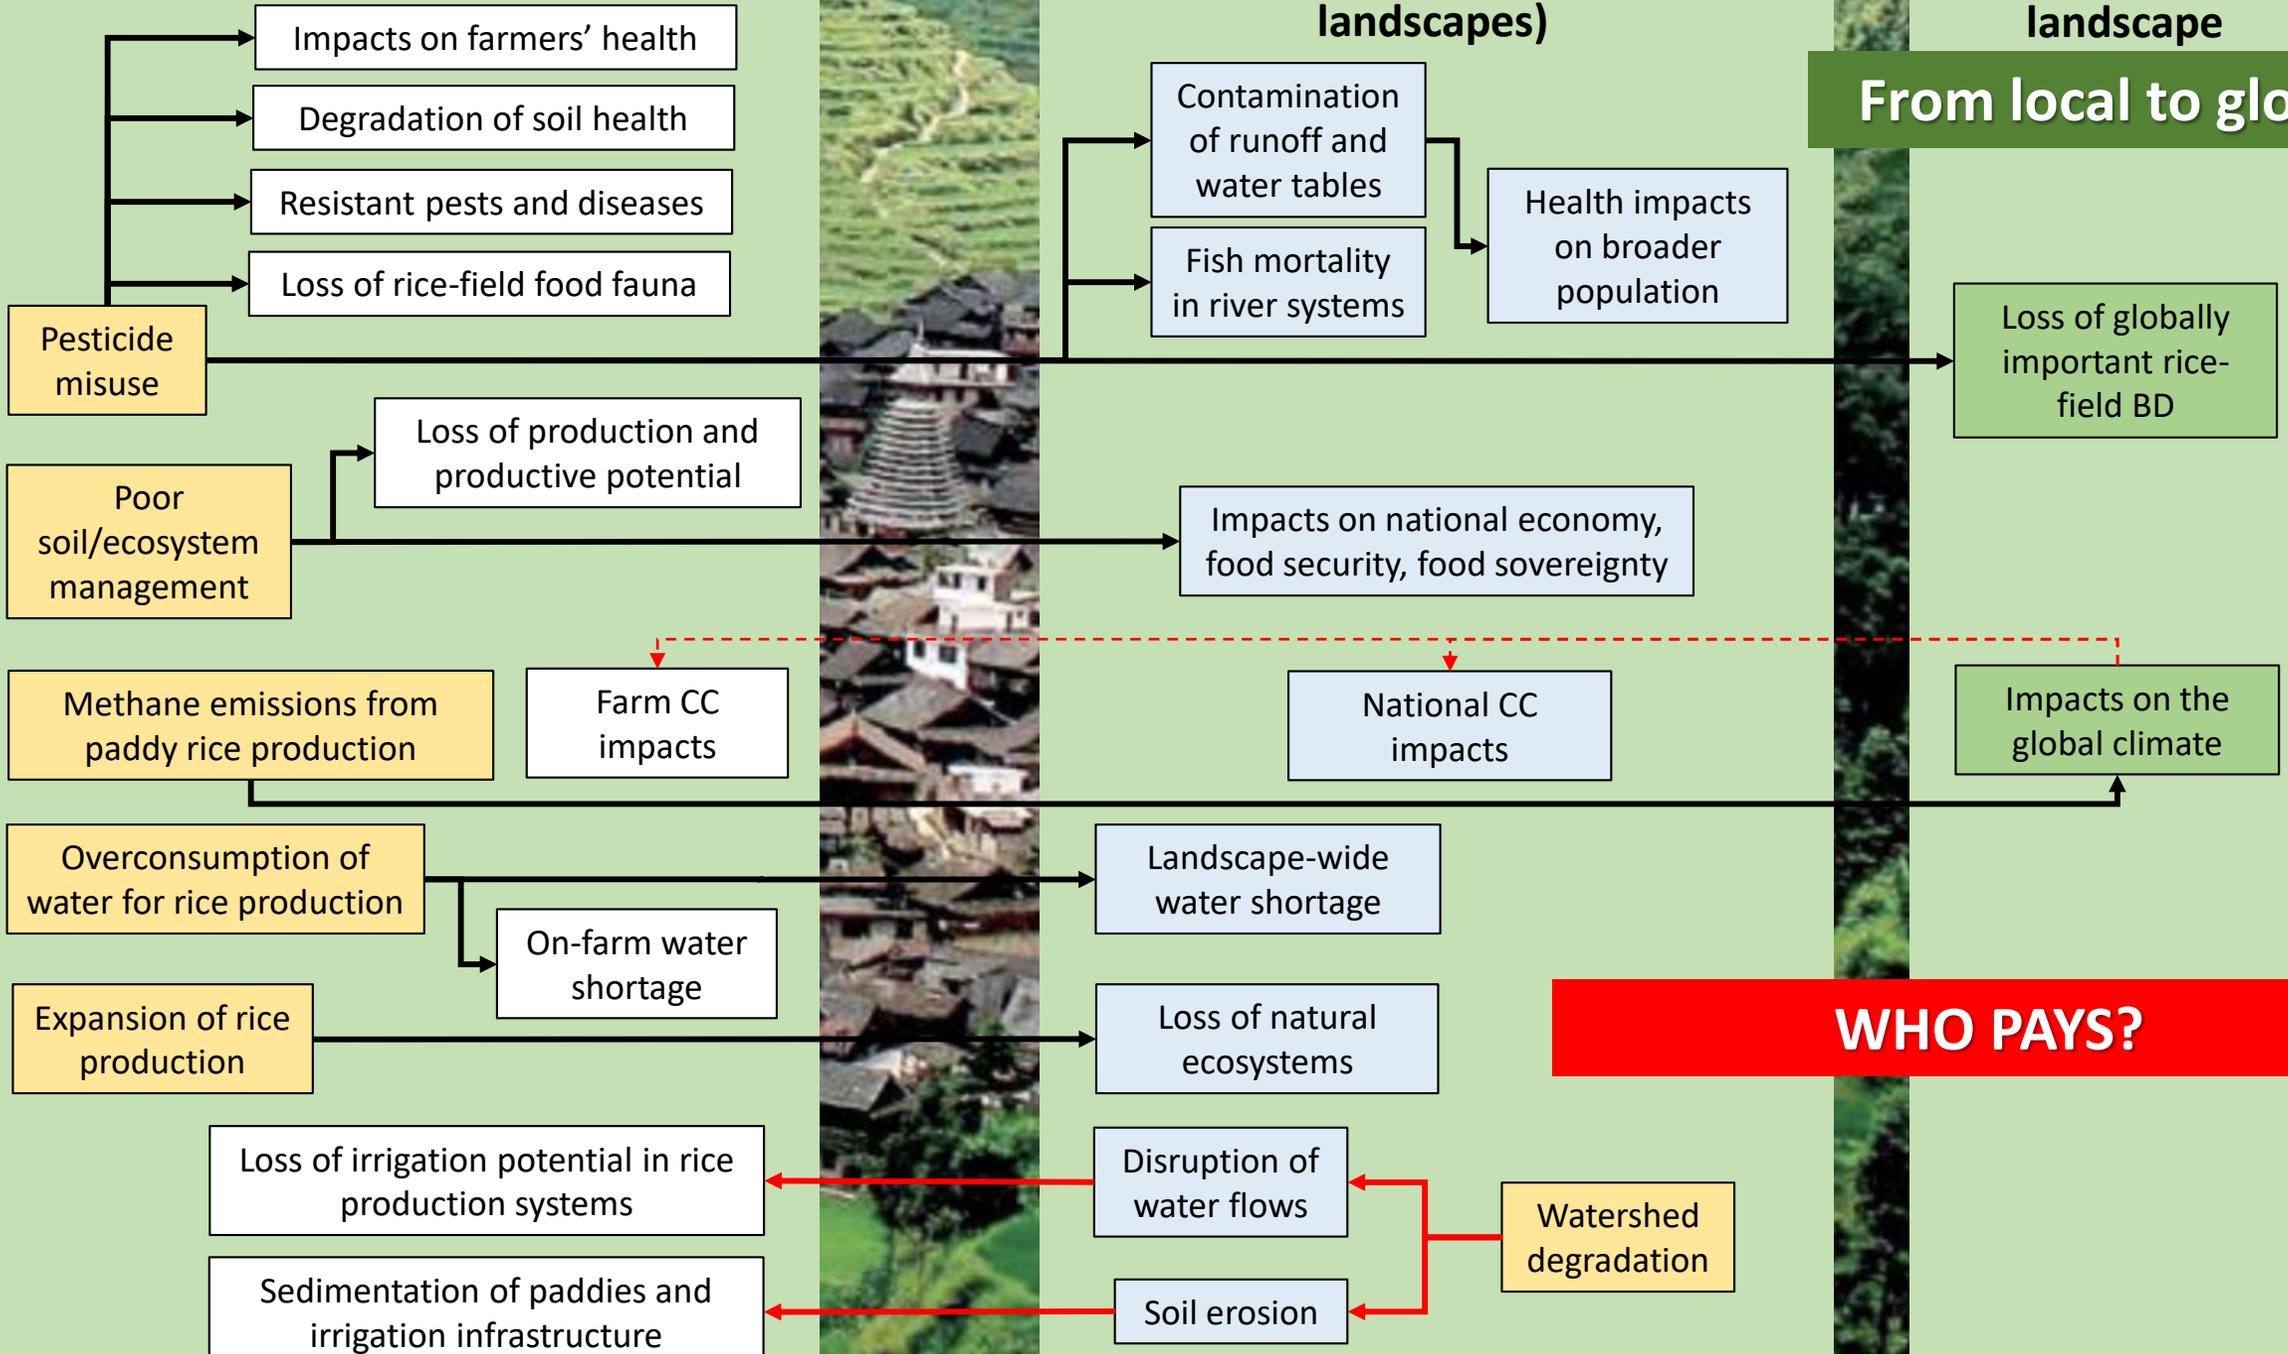

On farm (rice production systems)

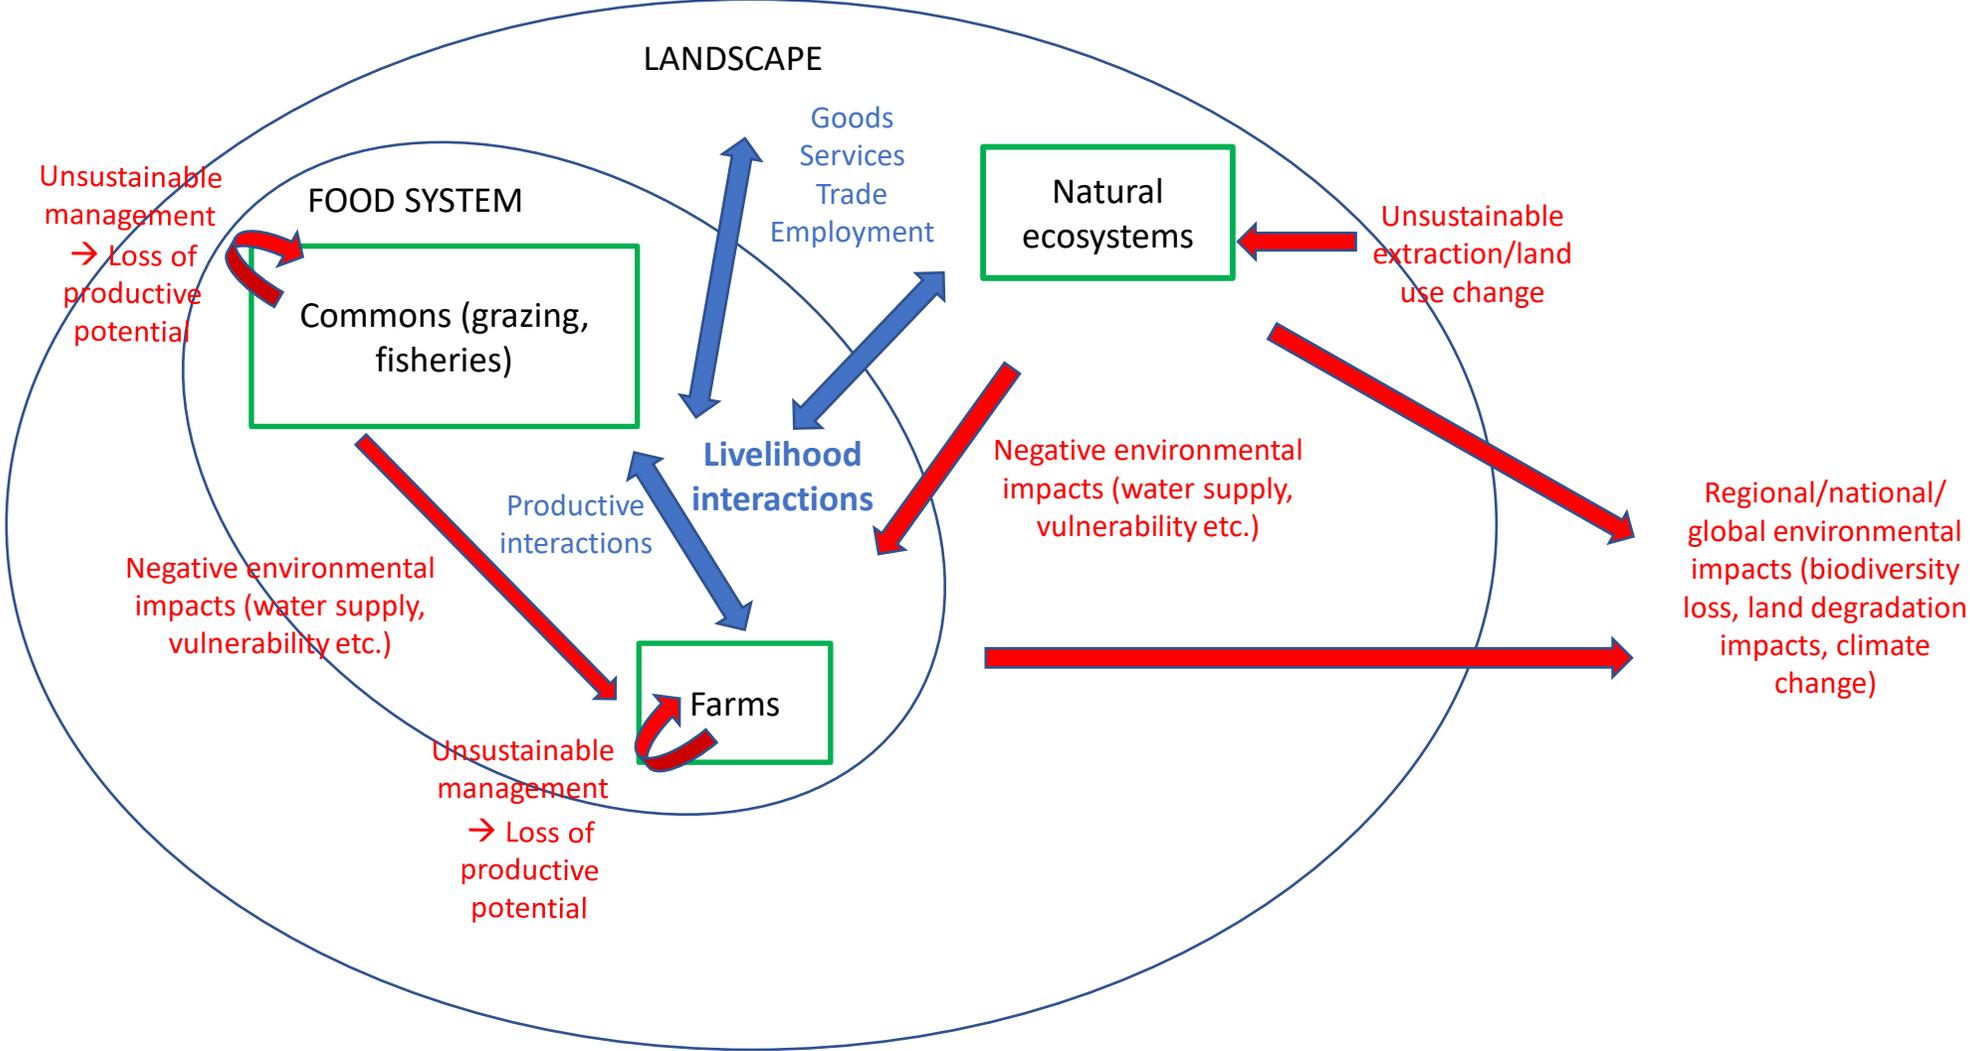

Off farm (broader rice production landscapes)

Outside of the landscape

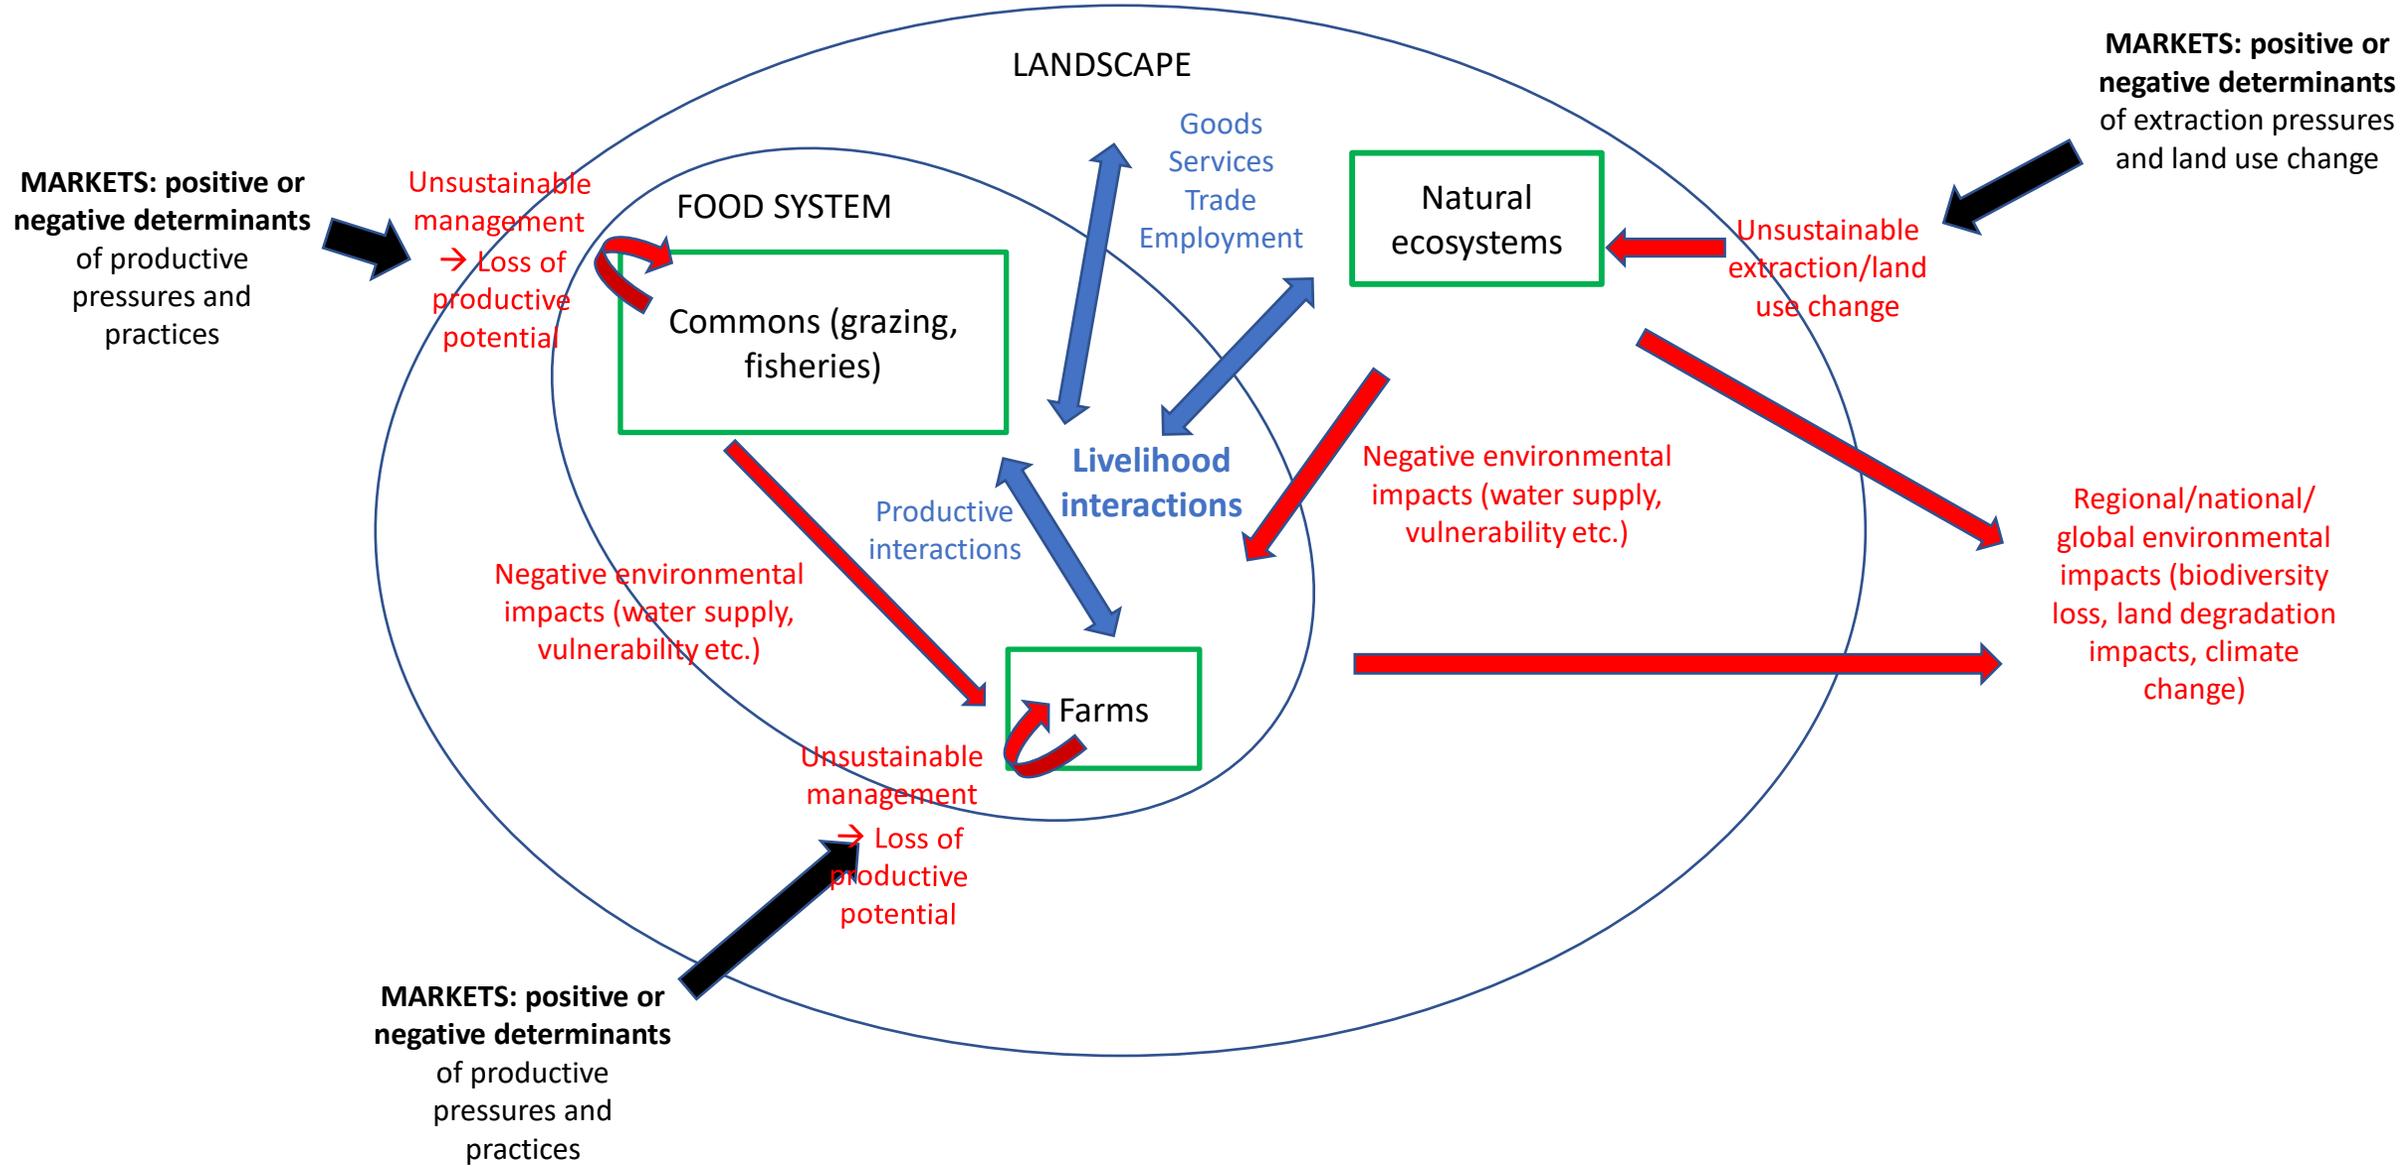

From local to global

Landscapes and livelihoods: the human dimension

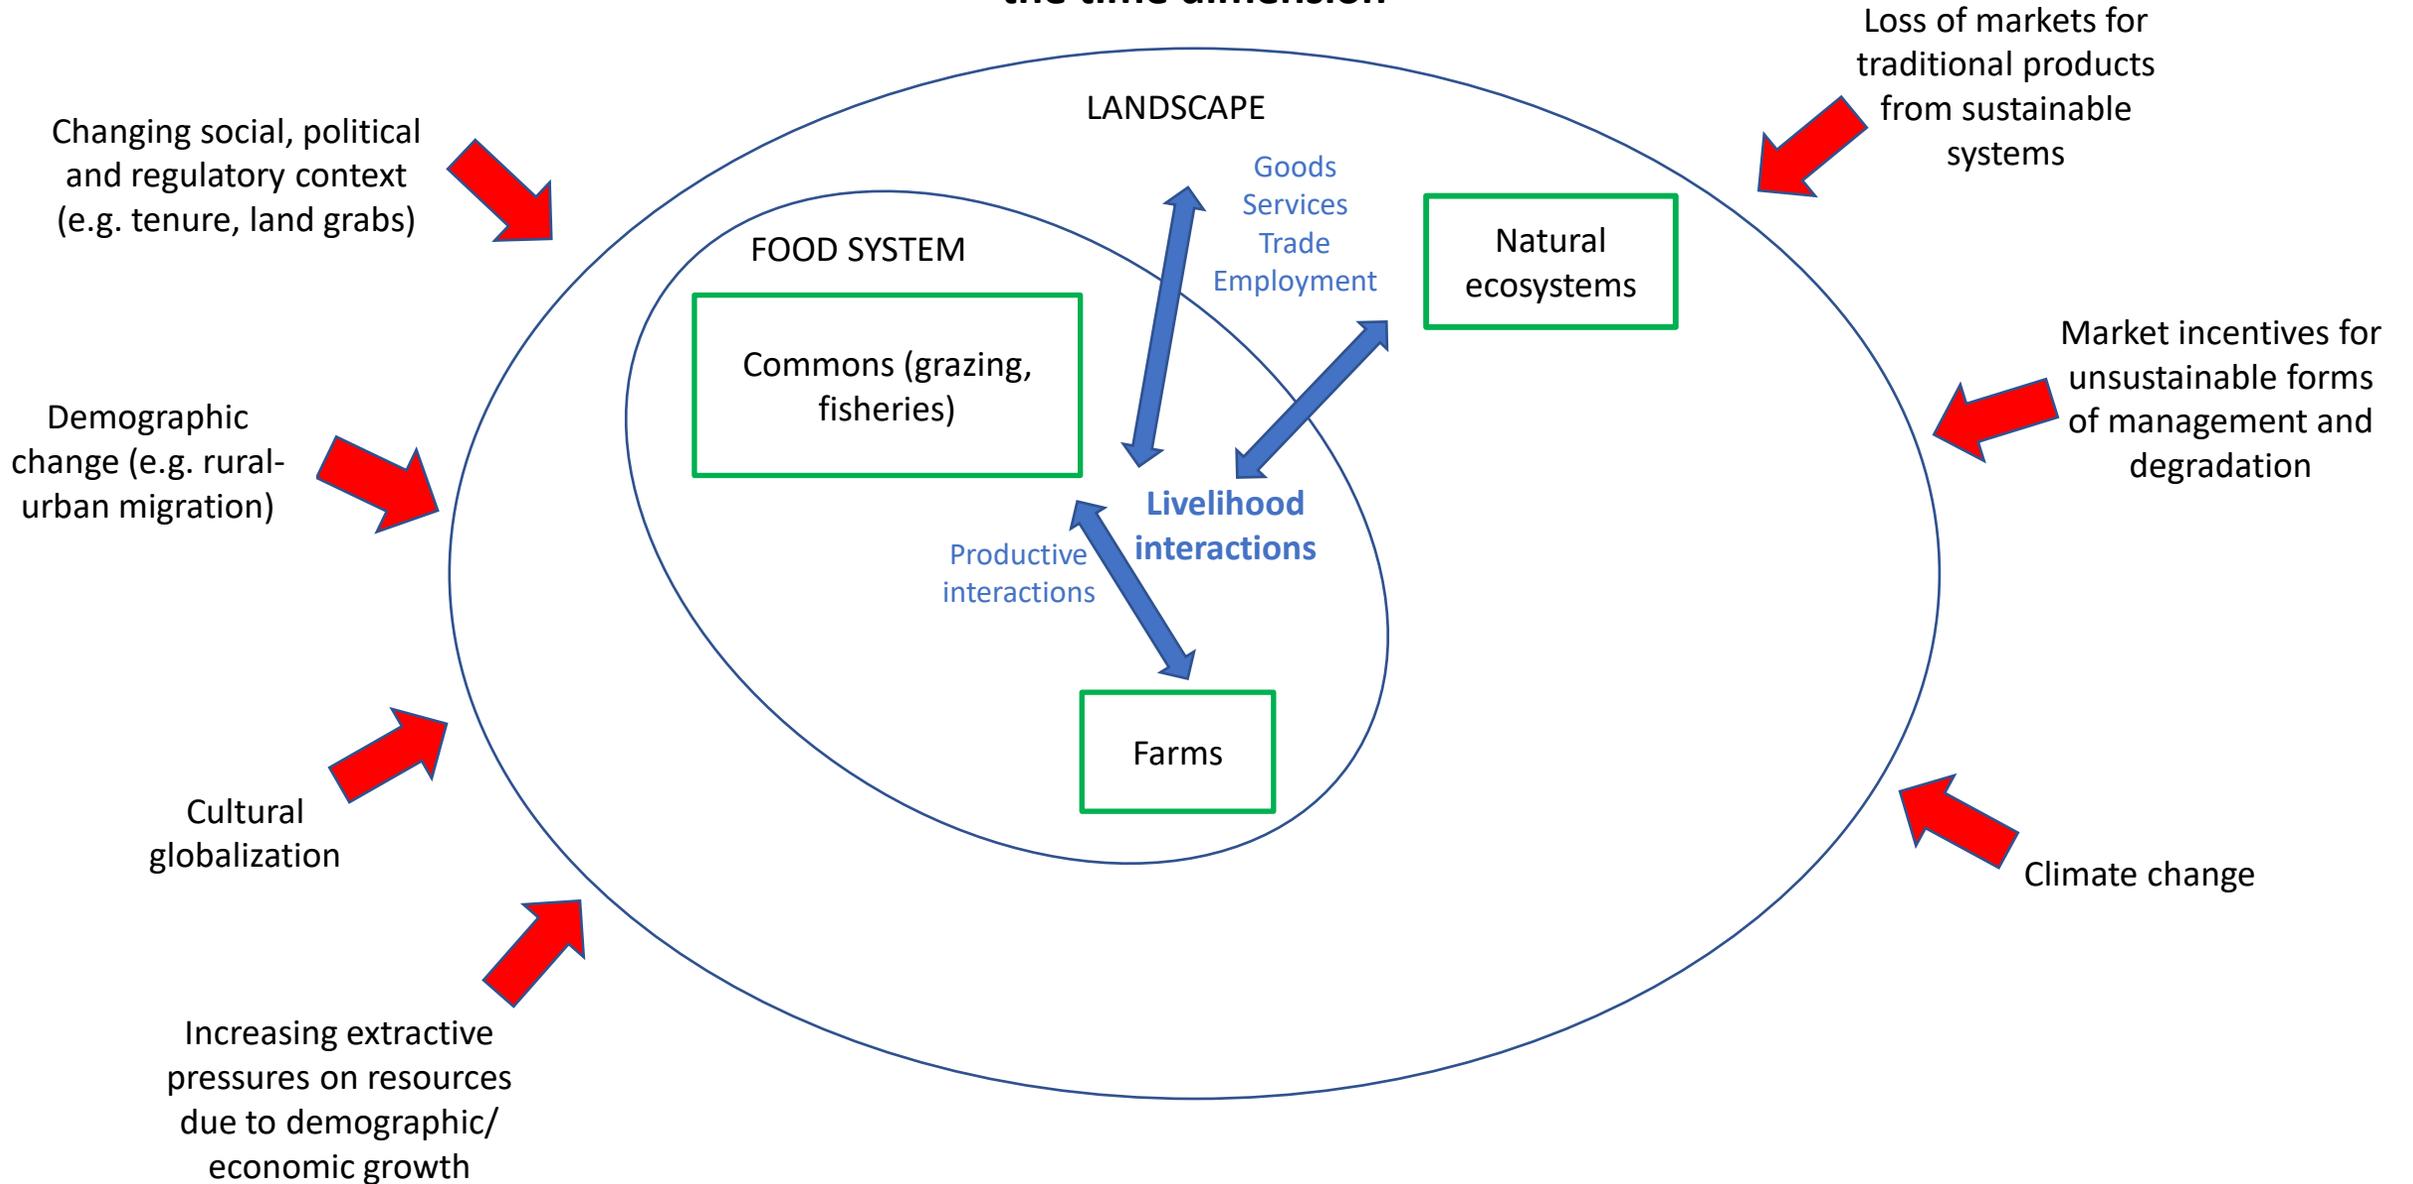

Influences of value chains on landscape dynamics

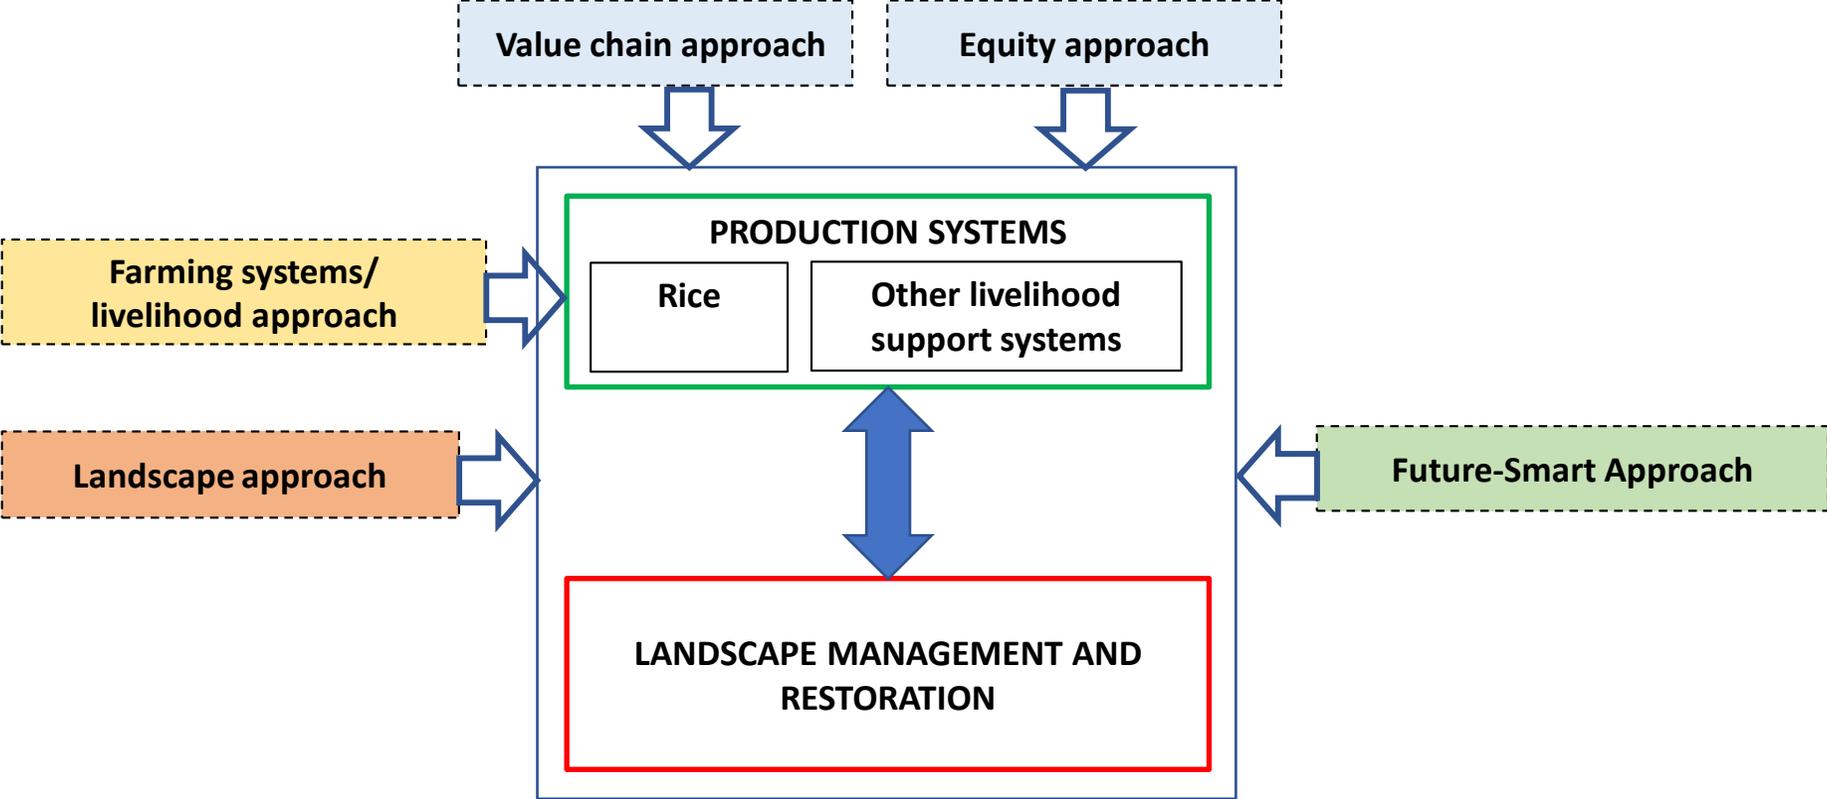

CHANGES UNDERMINING LIVELIHOOD AND LANDSCAPE STABILITY

**“Moving goalposts”:
the time dimension**

**Towards sustainable rice landscapes:
addressing multiple dimensions**

The goal: sustainable rice landscapes
→ sustainable and equitable
environmental and social benefits

Healthy watersheds,
biodiversity
protection

Resilience

Diverse,
sustainable
livelihoods

Reduced
agrochemical
pollution

Agricultural
biodiversity
